

To enable Fast Balances:

1. Simply log-in your account using the Mobile app on each of the devices that you wish to view fast balances on.
2. Click on the Universal menu icon then select Mobile Services.
3. In the Mobile services menu select Manage Fast Balances.

4. Read and Accept the disclosure

5. Give your device a name and select which accounts you wish to enable for fast balances. *Fast balances must be enabled on each device (So if you wish to use this feature on multiple devices, each device must be registered).

← Manage Fast Balances ☰

Device Name (e.g., Mary's iPhone):

Enable Fast Balances

Fast Balances allows you to view balances and recent transactions right from the Sign In screen, without entering your user ID and password. Choose the accounts you want to include in Fast Balances.

Basic Checking 18/65 x6126

NOW x8245

← Manage Fast Balances ☰

Fast Balances has been enabled on this device.

Device Name (e.g., Mary's iPhone):

Disable Fast Balances

Fast Balances allows you to view balances and recent transactions right from the Sign In screen, without entering your user ID and password. Choose the accounts you want to include in Fast Balances.

Basic Checking 18/65 x6126

NOW x8245

6. That's it! The next time you open the app, you can swipe down on the grey pull down tab on the Sign in page to view your account balances!
