

What is My Mobile Money?

With the My Mobile Money app, you are able to be in more control of your debit card activity!

Here's what you can do with this app:

- Set alerts for certain transaction types and transaction amounts
- Set alerts and controls based on the location of the transaction
- Need to keep tabs on the funds in your account? Simply tap on the account you want to view and then select an action, like Recent Transactions to view details of the last few transactions you made.
- If you misplace your card, you can turn off/on your card immediately.
